AN **EXOTIC** COMPANY
AUTOMATION & SUPPLY

80/20 Modular T-Slot Aluminum Building System

THE STANDARD FRAMING SOLUTION

From light to heavy-duty, 80/20 is a perfect solution for automation solutions, robotic arms, machine frames, guarding, enclosures, displays and workstations. With a catalog of over 8,500 products to choose from, free design assistance and 80/20 Builds assembly support, 80/20 will ensure your project is completed to the highest standards.

Product Solutions

⇒ **Custom Aluminum Framing Systems**

⇒ **T-Slotted, Ready Tube & Quick Framing**

⇒ **Fasteners, Hardware & Connectors**

⇒ **Panels & Doors**

ALUMINUM IS THE ANSWER

AND MUCH MORE

GUARDING • WORKSTATIONS • MATERIAL HANDLING • STRONG • MODULAR • CUSTOM • FLEXIBLE • EASY ASSEMBLY • MACHINE FRAMES • AUTOMATION
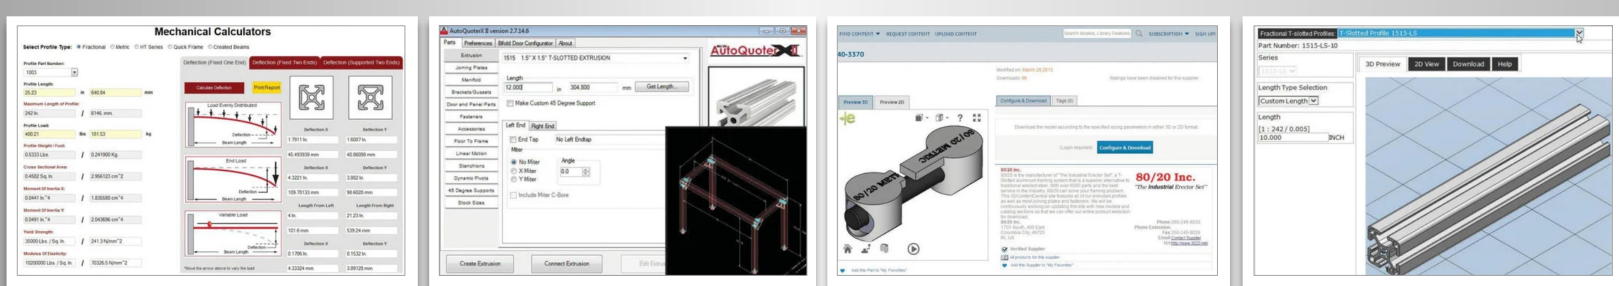

Why T-Slot Aluminum?

- Weighs Less Than Steel
- No Welding Required
- Integrate Components
- Modular Design
- More Cost Effective
- No Machining Required
- Decreased Labor Time
- Corrosion Resistant

Design Custom Solutions

Free Design Tools

80/20 offeres several free tools, libraries and drawing files to make it easy for you to design and enhance your 80/20 project.

- AutoQuoterX® II
- Tech Toolkit™
- PartSolutions®
- SolidWorks® Dynamic Library
- 3D ContentCentral®
- CAD Direct

APPLICATIONS

⇒ **Machine Frames**

⇒ **Material Handling**

⇒ **Automation**

⇒ **Safety & Guarding**

⇒ **Workstations**

⇒ **Pneumatics**

⇒ **Robotics**

⇒ **Facilities**

INDUSTRIES

⇒ **Industrial Manufacturing**

⇒ **Molding & Plastics**

⇒ **Architecture**

⇒ **Automotive**

⇒ **Healthcare**

⇒ **Universities**

⇒ **Retail**

⇒ **MRO**

PRODUCT SELECTOR

CHOOSE THE RIGHT PART FOR YOUR PROJECT

This selector is easy to use and helpful from the brainstorming phase all the way through design and purchase. Input criteria to help choose the exact profile or part you need to complete your unique project to your specific requirements.
