

EXOTIC

AUTOMATION & SUPPLY

We Take Care of the Repetitive & Time Consuming Tasks to Increase Efficiency & Profits!

Bent Tube Assemblies

From prototype to production, Exotic Automation & Supply specializes in producing high quality bent tube assemblies in **steel, stainless steel and copper**.

Available in sizes ranging from **1/4" to 8" in diameter** with customized tube threading & end configurations, Exotic produces tubes to your exact specifications.

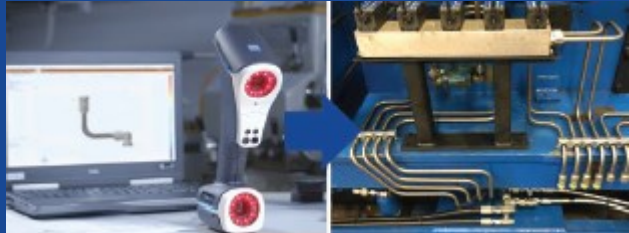

- Available in **High & Low Volumes!**
- 24/7 On-Site Service! Contact us at **(844) FIX-HOSE**

ZEISS

SCANNING & PROTOTYPING

On-Site Reverse Engineering!

Don't have the CAD drawing of your hose assemblies? No problem! Our technicians will come to your site to take a full detail scan of your hose and tubes to create CAD models and drawings for product replacements.

NON-WELDED PIPING

Pyplok is the weldless, threadless way to join pipe / tube! Using a portable, hand-held installation tool, couplings are cold worked and permanently compressed onto the piping, thus forming a permanent leak tight seal.

Pyplok™

Eliminate the extensive requirements & costs of welding!

Hose Kitting & Bundling

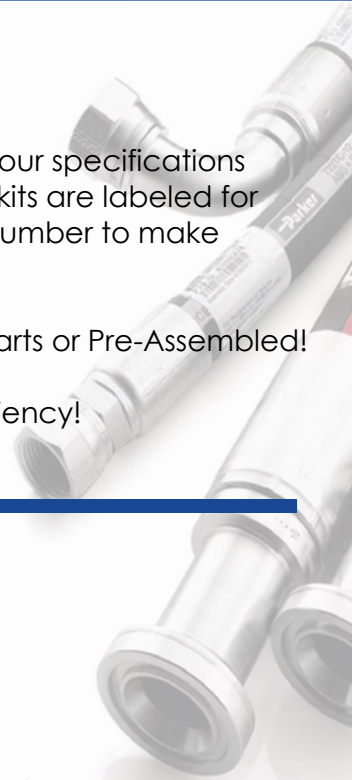

HOSE & FITTING KITTING

Simplify your ordering process!

Exotic provides you with custom hose kits built to your specifications while helping you reduce your inventory costs. All kits are labeled for easy identification & the entire kit is just one part number to make reordering simple!

- Kitted Hose and Fittings Available as Separate Parts or Pre-Assembled!
- Custom Labeling Available!
- Receive Parts Production Ready & Improve Efficiency!
- Reduce Inventory & Eliminate Long Lead Times!

CUSTOM TUBE BUNDLES

Exotic specializes in custom cut tube bundles with the ability to produce up to 12 tubes per bundle and cut to your specified size and length.

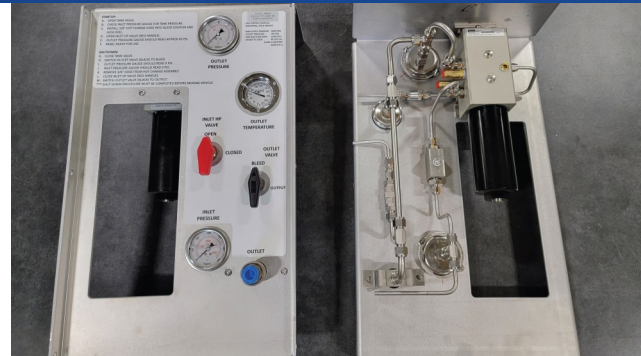

Available in Thermoplastic and Fluoropolymer Tubing!

Custom Solutions

PANEL BUILD ASSEMBLY & TEST

Integrate multiple components on one panel!

Exotic incorporates the full breath of fluid power products, from pneumatic and hydraulic to fluid connector on one panel.
