Exotic offers a variety of system solutions to support cultivation processes.

- ✓ Transair Piping System
- ✓ TrolMaster Safety System
- ✓ Replacement Filters
- ✓ Air Filtration System
- ✓ Nitrogen Generators
- ✓ Instrumentation Fittings
- ✓ Process Chillers

TRANSAIR ADVANCED CO2 PIPING SYSTEM

An installed Transair system will provide a significant cost savings over all the other traditional piping systems.

- Aluminum Pipe
- Stainless Steel Pipe
- Custom Regulator Drop Stations
- Corrosion Resistant System

TROLMASTER CARBON-X SYSTEM

- Auto CO2 Shut-Off
- Auto Control of Exhaust Fan
- Integration With Fire Alarm
- Modular Design
- Monitors Up To 13 Zones
- High & Low Level CO2 Alerts

Maintain the Highest Level of Air Quality in Your Facility

REPLACEMENT FILTERS

Stop wasting money on overpriced filters. Exotic offers cost savings solutions for replacement HVAC and dehumidifier filters.

EXOTIC CLEAN AIR SYSTEM

Exotic Clean Air™, developed by Exotic Automation & Supply, is a 4-stage filtration solution. Lab tests prove Exotic Clean Air™ achieves almost 100% of micro-organism deactivation in 15 minutes while the True-HEPA filters out particles as small as 0.3 microns.

- Configurations: Mobile, Wall, Ceiling
- UV-C Germicidal Technology
- 99.97% True-HEPA Main Filter
- Illuminated On/Off Switch
- 4 Position Fan Speed Selector
- Change Filter Indicator Light
- Access Door Safety Switch
- 4 Lockable Casters (installed)
