AUTOMATION & SUPPLY

ROBOHAND

DESTACO
a DOVER company

Why DESTACO?

Engineered Reliability

Today's manufacturing challenges are tougher than ever. Regardless of your application, DESTACO offers automation, workholding and containment solutions to meet your needs.

Find the perfect product that fits your needs by browsing DESTACO products by application, brand, function or market.

DESTACO's Robohand products are designed to be used together in a number of combinations to offer a unique automation solution to fit your needs. The products in this line are engineered and precision machined for...
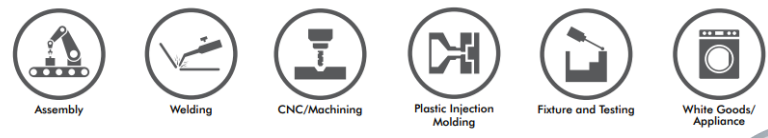

- Reliability

- Long Life

- Precision Repeatability

- Minimal Maintenance

DESTACO Robohand Product Solutions

ROTARIES

DESTACO's Robohand Pneumatic Rotary Actuators are a zero-backlash, cam-actuated drive compatible with industry standard servo motors for precise control, efficiency and flexibility.
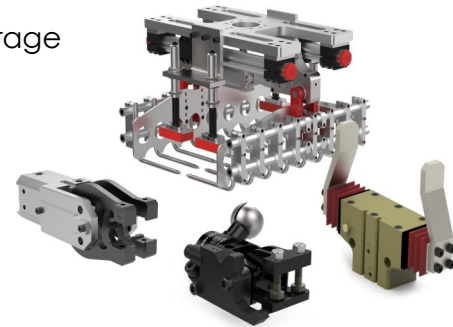

- Preloaded Bearings for High Repeatable Rotary Action

- Optional Shock Absorbers & Manifolds

- Various Rotational Adjustments

- Suitable for Tight Space Applications

GRIPPERS

DESTACO's Robohand Grippers have the ability to pick up, place, hold and release objects while an action is being executed. Parallel and Angular Grippers are Offered in Three Different Product Groups:

- Stainless Steel Grippers for Food & Beverage

- Miniature Clean Room Products for Pharmaceuticals

- Heavy Duty Material Handling Solutions for Industrial Automotive Applications

THRUSTERS & SLIDES

DESTACO's Robohand Slides and Thrusters are both externally and internally powered and can be utilized in many industries with single direction to complex X-Y-Z motion requirements.

- Multiple Styles to Extend, Retract Push or Pull Applications

- Modular System Supports Multiple Linear Movements & Positioning

- Telescoping Airlines Transfer Air to Tooling Increasing Reliability
