Predict Failure Before It Occurs

Parker's SensoNODE™ Sensors and Voice of the Machine™ Software are IoT-empowered solutions that create new, advanced condition monitoring possibilities to reduce downtime and decrease maintenance costs, helping you to maintain production and improve efficiency.

VOICE OF THE MACHINE™

Parker's advanced condition monitoring solutions listen to the Voice of the Machine, allowing you to:

- Reduce your risk, maintenance costs, and unplanned downtime
- Uncover operational and performance improvements
- Make informed, confident decisions for greater peace of mind
- Leverage Parker's expertise to employ cost-effective condition monitoring

Introducing SensoNODE Silver Sensors

SensoNODE™ Silver Sensors | **Cellular Network** | **Cloud Server** | **VOICE OF THE MACHINE Cloud**

Parker's next innovation in wireless sensors is SensoNODE Silver. They are different from SensoNODE Gold and Blue Sensors because they utilize cellular technology. This makes them perfect for applications where gateways are impossible or inconvenient. The data from the SensoNODE Silver is sent directly to the Voice of the Machine Cloud interface. For current cloud customers, Silver data can be integrated into existing Voice of the Machine cloud accounts. The first sensor being introduced is the SensoNODE Silver Pressure Sensor.

Part Number	Pressure Rating psi [bar]	Port	Width	Height
SNPT4-1-CA-4MP	-14.5 to 14.5 [-1 to1]	1/4" Male NPT	3.00" [76mm]	6.33" [161mm]
SNPT4-10-CA-4MP	0-150 [10]	1/4" Male NPT	3.00" [76mm]	6.33" [161mm]
SNPT4-16-CA-4MP	0-232 [16]	1/4" Male NPT	3.00" [76mm]	6.33" [161mm]
SNPT4-100-CA-4MO	0-1500 [100]	-4 SAE	3.00" [76mm]	6.33" [161mm]
SNPT4-250-CA-4MO	0-3625 [250]	-4 SAE	3.00" [76mm]	6.33" [161mm]
SNPT4-400-CA-4MO	0-5800 [400]	-4 SAE	3.00" [76mm]	6.33" [161mm]
SNPT4-600-CA-4MO	0-8700 [600]	-4 SAE	3.00" [76mm]	6.33" [161mm]

- Increased Uptime
- Longer Asset Lifetime
- Reduced Maintenance Cost
- Uses Cellular Technology
- Sensors Report Every 20 Minutes

- Condition Data available 24/7
- Plug & Play Technology
- Customizable Dash Board
- Gateway not required
- Low Cost of Engagement

- Customizable Dashboards
- Low Cost of Engagement
- $99.00 per year Subscription

First 3 Years Free!

Streamline Your Work with Advanced Condition Monitoring and Diagnostics

Continuous Remote Monitoring

- User selectable measurement data storage
- Remote solution accessible anywhere, anytime
- Get notified automatically of discrepancies
- Ideal for environments where assets are mission critical
- Long-term & immediate health of machines are viewable globally
