

EXOTIC
AUTOMATION & SUPPLY

In-System Damage Reduction & Protection

Keep Your Class A Painted Surfaces Protected!

Want to significantly reduce wasted & damaged material? Exotic Automation & Supply's In-System Damage Protection, ISD, uses a high grade neoprene foam rubber, coated with a high performance grade polyurea with a hardness rating of 80A and is proven not to damage Class A surfaces.

Custom fit Bollard Covers of polyurea foam fit over existing ballard cover.

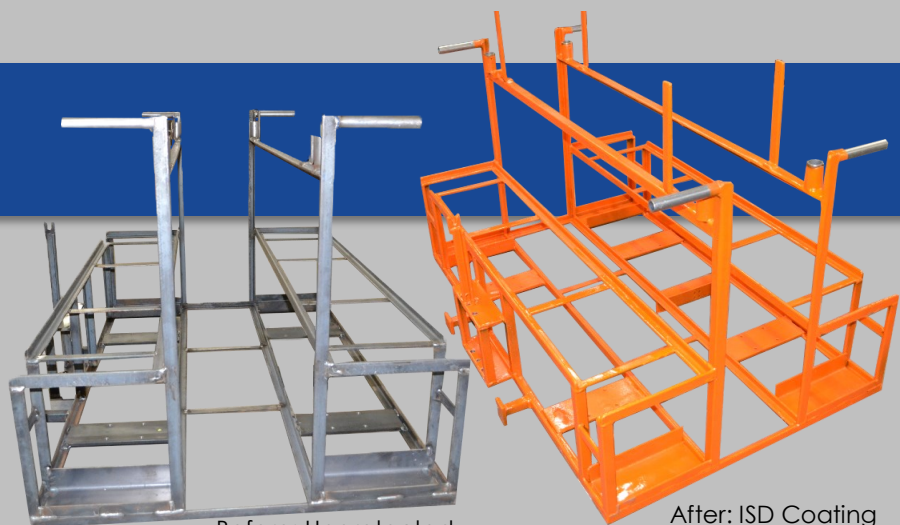

Cover automotive installation equipment to prevent damage. Provided as a kit or custom application.

**Proven Cost Savings
of up to \$300K per year!**

In-System Damage Can Be Applied to Virtually Any Surface to Provide:

- Vehicle Protection
- Installation Tooling Protection
- Class-A Surface Protection
- Injury Mitigation
- Facility Protection

Before: Unprotected means parts could get damaged.

After: ISD Coating protects parts from damage.
