## Electromechanical Lubrication Systems

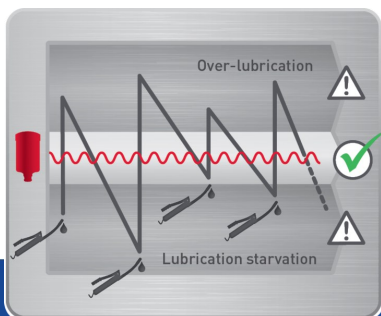

### THE EXPERT IN LUBRICATION SOLUTIONS

For more than 50 years, perma has stood for innovative and creative lubrication solutions. perma single- and multi-point lubrication systems are used in various industries and applications around the world.

Today, anyone looking for safe, effective and long-term economical lubrication of equipment takes advantage of automatic lubrication. perma offers ideal technical and economical solutions for any lubrication point.

## MANUAL VS. AUTOMATIC LUBRICATION

Automatic lubrication with perma lubrication systems ensures constant supply of the ideal lubricant quantity. Unlike manual lubrication, over-lubrication or lubrication starvation can be prevented.

### Over -Lubrication

- ◆ Increases operating temperature
- ◆ Damages contact seals
- ◆ Excessive lubricant consumption

### Lubrication Starvation

- ◆ Increases friction and wear
- ◆ Risk of dry runs

# perma Lubrication Systems

perma lubrication systems can be used wherever there are lubrication points. perma's leadership in the single-point lubrication market is based on numerous patented and specifically certified products. The product portfolio ranges from the robust single-point lubrication system to the individual supply of up to 600 different types of lubrication points.

## ADVANTAGES

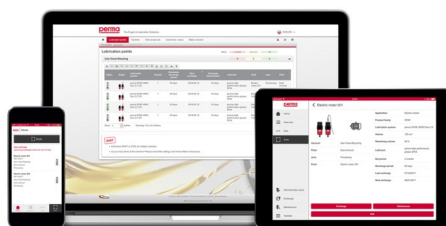

- ◆ Reduces Costs by up to 25%
- ◆ Simplifies Maintenance Work
- ◆ Reduces Risk of Accidents up to 90%
- ◆ Prevents up to 75% of Roller Bearing Failures
- ◆ Prevents Contamination from Liquids & Dirt
- ◆ Environmentally Friendly Components will help to Minimize Energy and Material Costs

## APPLICATIONS

- ◆ Electric Motors
- ◆ Blowers & Fans
- ◆ Conveyors
- ◆ Pumps
