## SKF Fuel Transfer Pumps

Lincoln's model 1550 Fuel Transfer Pump quickly delivers diesel, kerosene or mineral spirits from both mobile and stationary tanks. Its durable cast-iron housing, long-life, low-friction vanes, special seal design, UL listed motor and stainless steel outlet adapter provide reliability in even the harshest environments.

The pump's unique, three piece, telescoping pick-up tube is suitable for a wide range of tank depths and designs, and it's 360-degree, locking bung enables the operator to properly position the pump. The model 1550 delivers fuel at a rate of 15 gal/min (57 l/min) and comes with a 13ft (4 m), commercial-grade, anti-static hose that is kink resistant for uninterrupted flow.

Insulated, weatherproof design

Long-life, low-friction polymer vanes provide extended service intervals

Stainless steel 90-degree hose adapter

1in (25.4mm) pump inlet and outlet offer high flow rate

13ft (4m) commercial-grade, kink resistant, anti-static hose

Pre-wired, heavy gauge, 18ft (5.5m) cable for operator convenience

360-degree locking bung for proper positioning

Three-piece telescoping pick-up tube for varying tank depths
