Parker transair

Parker Transair Aluminum Air Pipe for Construction

Why Transair Air Pipe?

**Long Lead Times Killing You?
Is Your Material on a Slow Boat from China?**

➔ **Miles** of Transair Piping In-Stock Shipped from Michigan, Indiana, Kentucky & California.

Labor Shortages Delaying Your Build?

➔ Transair Reduces Labor Time up to **78%** per MCAA. Exotic Can Provide Full Turnkey Installation or Provide Certified Factory Authorized Installation Training for your Contractors.

Fluctuations in Material Cost Outpacing Your Budget?

➔ **Stabilized** Transair Project Based Pricing for up to 6 Months. Extruded Aluminum Pipe Savings range from 15% to 30% over Carbon Black Pipe.

Installer Fatigue Decreasing Production?

➔ Transair Pipe is up to **90%** Lighter in Weight than Traditional Grooved Black Carbon Pipe.

Transair is a Preferred Product of Choice!
Transair is currently on spec at Ford, Tesla, General Motors, Fanuc, Generac & more!

Parker's Transair Aluminum Compressed Air Piping, available in sizes 3/4" to 8", has been the industry standard for over 25 years and is offered in both aluminum and stainless steel piping for compressed air, vacuum, industrial / inert gas, process water and chemical transfer applications. Transair's lightweight design features a quick connection technology that requires minimum tooling resulting in installations up to 78% faster installations than traditional piping technologies (copper, black, iron, steel).

Technical Specifications

Available from 5/8" (16.5mm) to 8" (220mm)

Suitable fluids:

- Compressed air (dry, wet, lubricated)
- Vacuum—100% silicone free
- Inert gases

Maximum working pressure:

- 232* psi from -4°F to +115°F
- Vacuum level: 98.7 % (29.6" Hg)
- Working temperature: from -4°F to +140°F
- Storage temperature: from -40°F to +176°F

Resistance to:

- Corrosion
- Mineral & synthetic compressor oils
- Aggressive environments
- Mechanical shocks
- Thermal variations
- Ultraviolet

Corrosion Resistant - Will Not Degrade Overtime Like Copper & Steel!

** Power Coated to enhance its mechanical, physical and chemical properties, making it ideal for aggressive industrial applications.*

Exotic is Parker's Only Authorized "Parker Distributor" Servicing Michigan, Indiana & Ohio!

Over \$1.6M in Inventory supported by the following stocking locations:

- New Hudson MI
- Grand Rapids, MI
- Shelby Township, MI
- Louisville, KY*
- Port Huron, MI
- Buena Park, CA*
- Indianapolis, IN*

Stocking all sizes – 16.5 mm (5/8") – 220 mm (8")

Ancillary Items Offered:

- Hertz Air Compressors
- Air Dryers – Refrigerant, Membrane and Desiccant
- Full Compliment of Compressor & Point of Use Filtration
- Hose Reels

- Same Day Shipments and Delivery Available!
- Factory Authorized Certified Hands on Training - On-site and or Classroom
- Tools Rental and Loaner Programs Available
- Layout Design and Services Available
- CAD Model Files Available for BIM Modeling
- System Pipe Sizing Assistance Offered
- Full Line Catalogs & Brochures
- On-Line Submittal Document
- Full Turkey Design/Installation Available

*Parker Owned Warehouse

Stainless Steel Transair:

Transair Stainless Steel Pipe offers strong chemical compatibility for washdown and high purity applications where daily cleaning & overall cleanliness is mandatory.

- Available from 3/4" to 4"
- 10-Year Warranty
- 100% Recyclable & Silicone Free
- Can be integrated into existing cooper, steel and aluminum systems without compromising performance
