ABOUT DESTACO

Built on a Strong Foundation

Gripping Solutions

Linear Positioning Solutions

Rotary Positioning Solutions

Clamping Solutions

CRL Remote Handling Solutions

Robotic Tooling Solutions

DESTACO, a Stabilus Group company, is a global leader in the design and manufacture of high-performance automation, workholding and remote-handling solutions. The company serves customers in a variety of end-markets, including the automotive, life sciences, consumer packaged goods, aerospace, industrial and nuclear sectors.

Built on a legacy of more than 100 years, DESTACO offers a comprehensive portfolio of products designed to engineer precise movement, placement and control solutions that drive productivity and uptime for manufacturers around the world. The DESTACO family of products consists of industry-leading brands such as DESTACO Manual Clamps, Power Clamps, and End Effectors; CAMCO™ and Ferguson™ Indexers; Robohand™ Grippers; and CRL™ Manipulators and Transfer Ports.

DESTACO is based in Auburn Hills, Michigan, U.S.A. The company has more than 800 employees with 13 locations, in 9 countries, across the Americas, Europe and Asia.

Stabilus is one of the world's leading providers of motion control solutions for customers across a broad spectrum of industries including mobility, industrial machinery, automation, energy, construction, health, recreation, and furniture. Stabilus offers reliable and innovative solutions that enable, enhance and automate precise movement, placement, as well as opening, closing, lifting, lowering and adjusting actions. The Group, which has its headquarters in Koblenz, has a global production and distribution network with more than eight thousand employees worldwide and generated revenues of €1.2 billion in the 2023 fiscal year. Stabilus SE is listed in the Prime Standard segment of the Frankfurt Stock Exchange and included in the MDAX index.

More information is available at destaco.com and group.stabilus.com

Focusing all our Resources

New Product Development

DESTACO has dedicated resources to design and build the next generation of products and solutions

Customer Service and Technical Support

DESTACO has industry leading global support to address any product and application concerns you may have

Design Tools

DESTACO provides an extensive CAD library, sizing software, and online tools to support our global customers

Our Insight Working for You

Application Engineering

We utilize our expertise and complete portfolio of products to create solutions that fit our customers' needs and applications

Custom Solutions

If our off-the-shelf solutions don't fit, we will partner with our customers to develop products that will

MAKING OUR PRODUCTS SPECIAL FOR YOU

When an off-the-shelf product can't handle it - we can!

With many years of experience working with OEM machine builders, we can make our product fit your unique application. We will partner with you to design the right product for your application – from altering an existing product to building a completely new product, we have the experience and expertise to help your project succeed.

Using our expertise to develop custom solutions for unique applications, DESTACO helps you save time and resources, allowing you to focus on your core business and gain a competitive advantage in the marketplace.

- Proven quality from the experts
- Reduce risk by using our experienced engineers
- Easy reordering with unique part numbers
- Simplify your supply chain
- Three levels of customization from simple alterations to complex custom products

Model 330
Standard Product

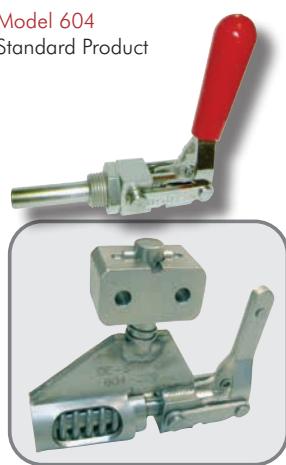

330-201 Stainless steel clamp
with special hook and locking tab

Model 2002-U
Standard Product

2002-200 with bar cut
& bolt retainer welded on

Model 604
Standard Product

604-229 Stainless steel straight
line clamp used in chemical
machining process

Model 624/624-MM
Standard Product

624-MM-872 with modified handle
and square plunger

Model 202
Standard Product

202-200 without
grip, with imperial
threaded spindle

Model 630-M
Standard Product

630-38 with electroless nickel
plating

Model 802-U
Standard Product

802-U219 with handle for manual operation

COLOR HANDLE OPTIONS FOR MANUAL CLAMPS

For visible assignment to security levels, operating modes or maintenance intervals

DESTACO is expanding the selection of color manual clamp handles. Different families of manual clamps are now available with 5 handle colors. The range of colors is interesting for customers who work in prototype construction as well as for customers who need to implement specific safety aspects using standardized color codes. Also it provides the option to have a customized color design.

- Manual lever handles in 5 different colors
- Can be ordered on 14 manual clamp series
- Available on other series models upon request, e.g. UB versions, locking clamps

Look for this symbol for clamps that offer color handles.

Color Handle Options Overview

Alternate color handles are available for the series listed below that use our standard red handles.* Add -Y, -G, -B, -K to end of model number. Please see our catalog for models available within a series.

*Excludes Blackout Series,
Toggle Lock Plus levers
or dipped handles.

STAINLESS STEEL CLAMPING SOLUTIONS

For Vertical, Horizontal, Pull-action Latch and Straight Line-Action Toggle Clamps

DESTACO's stainless steel product offering includes 60 models of vertical, horizontal, pull-action latch and straight line-action toggle clamps. They are, fabricated with corrosion, chemical and heat resistant stainless steel.

These stainless steel clamps are suitable for many applications that demand a clamp that is more robust than traditional steel models and are well-suited for outdoor use and food processing, as well as plating, finishing, chemical handling, pharmaceutical manufacturing and other high-temperature or harsh environments. They offer greater capabilities in a cost-effective package.

Product Highlights/Options

- Full stainless steel construction
- Corrosion and heat resistant
- Stainless steel, spindles, hooks and latch plates
- 60 models

Features, Markets and Applications

Vertical Hold Down Clamps

Guide to DESTACO Hold-Down Clamp options

Please refer to each series of Hold-Down Clamps in this Visual Selection Guide for specific availability.

"U" Bar for adjustable spindle location

"S" Bar for fixed and customized attachments

Flange Base Mount for secure surface mounting

"B" Straight Base Mount for blade mounting

"F" Front Mount for space saving, compact mounting

"R" Toggle Lock Plus prevents accidental/unintentional opening

"T" T-Handle for low profile ergonomic operation

"SS" Stainless Steel for chemical, heat and corrosion resistance

"BLK" Blackout Series for applications requiring a non-reflective finish

Heavy-Duty clamps with very high holding capacities available

2002 Series

Max. Holding Capacity: 2700 N [600 lbf]

Color handle option available.
See pg. 6 for more info.

K AND WK SENSOR OPTIONS

Pneumatic Power Cylinders

Pneumatic Power Cylinders Type K and WK with end position control by magnetic field sensors

How to Order

Indicate "-A" at the end of Model instead of "-1" for standard model.

Example:

Standard Model Number: K400-15-6-1

Model with Sensors: K400-15-6-A

(Not available on WK6000)

Sensor cage for T-slot proximity sensor

How to Order

Indicate "-K" at the end of Model instead of "-A" for standard version.

Example:

K400-15-6-A change to K400-15-6-K

(Not available on WK6000)

OUR PORTFOLIO OF PRODUCTS

End Effectors (EE)

- Tool Changers
- End-of-Arm Tooling
- Vacuum Products
- Palletizing Solutions

Grippers (GR)

- Electric Grippers
- Pneumatic and Sheet Metal Grippers
- Rotates
- Slides

Indexers (IN)

- Precision Conveyors
- Dial Indexers
- Shaft and Flange Indexers
- Part Handlers

Power Clamps (PC)

- Power Clamps
- Pin Clamps and Packages
- Pivot Units
- Power Cylinders

Manual Clamps (MC)

- Hold Down
- Squeeze Action
- Plunger, Hook and Latch
- Pneumatic Toggle and Swing

Sheet Metal Grippers (SM)

- Accelerate® Press Room
- Cam Type
- Toggle Lock

Hydraulic cylinder length (mm) vs. cylinder number (2024) for magnetic valves.

The figure shows a scatter plot with two data series. The x-axis represents the cylinder number (2024), ranging from 0 to 100. The y-axis represents the hydraulic cylinder length in millimeters (mm), ranging from 0 to 100. The first series consists of blue circles, and the second series consists of red squares. Both series show a decreasing trend as the cylinder number increases.

The blue circles series starts at approximately 100 mm for cylinder number 0 and decreases to about 10 mm for cylinder number 100. The red squares series starts at approximately 100 mm for cylinder number 0 and decreases to about 10 mm for cylinder number 100. There is a slight overlap between the two series at higher cylinder numbers, particularly around 100.

The data suggests that the length of the hydraulic cylinder decreases as the cylinder number increases, which may be due to a specific manufacturing or design constraint.

Overall, the plot provides a clear visual representation of the relationship between cylinder number and length for these magnetic valves.
