## FUEL FILTRATION SOLUTIONS

## About Racor

For more than 50 years, Racor has been a trusted leader in fuel filtration, gaining the confidence of engine manufacturers, operators, and equipment owners around the globe. With a strong foundation of innovation and cutting-edge technology, Racor provides exceptional engine protection and dependable filtration solutions for all operating conditions.

## Why Choose Racor?

- **Engine Protection:** Aquabloc® Synergy filters provide exceptional efficiency, long life, and unmatched water-removal performance.
- **Fuel Challenges:** Guards engines from dirt, water, and contaminants that can harm high-pressure systems and reduce efficiency.
- **Global Reach:** Quality-certified manufacturing, engineering, and distribution ensure solutions are available worldwide.
- **Advanced Technology:** Proprietary filter media and rigorous testing support modern fuels like ULSD and biodiesel.
- **OEM Integration:** Tailored filtration systems meet the stringent requirements of leading engine manufacturers.

**TURBINE SERIES**

*Legendary Diesel Fuel Filtration*
