

A LEADING KAISHAN DISTRIBUTOR

Exotic Air Systems is an authorized distributor for Kaishan, the 3rd largest compressor manufacturer in the world! Kaishan manufactures over 70,000 compressors yearly and offers a variety of compressor options including Rotary Screw Air Compressors, Industrial Vacuum Pumps, and Centrifugal Air Compressors.

WHY EXOTIC AIR SYSTEMS & KAISHAN?

Exotic Air Systems Benefits

- Factory-Direct Equipment & Support
- Energy-Efficient Designs that Cut Costs
- Turnkey Installation & Maintenance
- Custom Solutions for Your Facility
- Fast, Local, Expert Service

Kaishan Compressor Advantages

- Made in Alabama, USA
- 2M+ Units in Service Worldwide
- Proudly Employs U.S. Veterans
- Fully Vertically Integrated for Quality
- Durable, Long-Lasting Components

KAISHAN PRODUCT SOLUTIONS

Kaishan offers a full range of advanced rotary screw compressor technologies designed to meet the demands of today's industrial environments. Their lineup includes both direct drive and belt-driven compressors, built for maximum efficiency, reliability, and performance.

Oil-Injected Air Compressors

Oil-injected rotary screw compressors use oil for cooling and lubrication, offering lower overall costs than oil-free models.

Industrial Vacuum Pumps

Kaishan industrial vacuum pumps utilize positive displacement technology and are suitable for operation in harsh industrial environments.

Oil-Free Air Compressors

Oil-free rotary screw compressors use high speed and heat, not oil, for clean, high-purity applications.

Centrifugal Air Compressors

Kaishan Centrifugal Air Compressors are ideal for applications that have a constant demand for high volumes of compressed air.

Model	Description	Tier	Warranty	5	10	15	30	50	75	125	200	300	600
KRSP2	2-Stage	Ultra-Premium	Lifetime				■	■	■
