

EXOTIC

AUTOMATION & SUPPLY

LUBRICATION SOLUTIONS

SINGLE-POINT LUBRICATORS

- From classic to connected solutions
- Bluetooth and long range available
- Gas driven or electromechanical units

MULTI-POINT LUBRICATORS

- Grease or oil systems
- Progressive or parallel systems
- Variety of pumps to choose from

Other Brands Available:
Graco, Unist, Bijur, Dopag

BULK PUMPING EQUIPMENT

- Bulk fluid transfer
- High-performance pumps
- Wide fluid compatibility

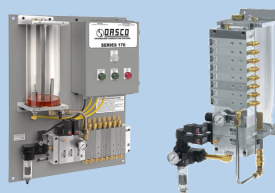

HOSE REELS & ACCESSORIES

- Spring-return & power reels
- Reliable and accurate dispensing solutions
- Grease guns & fittings also available

SPECIALTY SYSTEMS

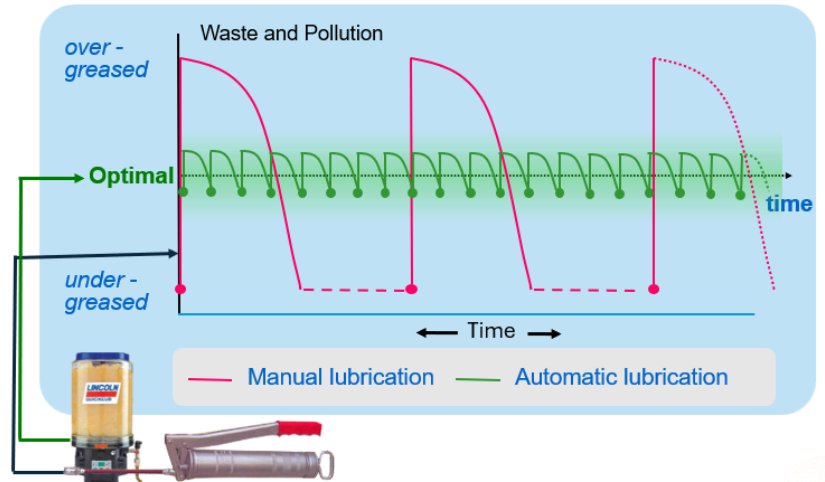

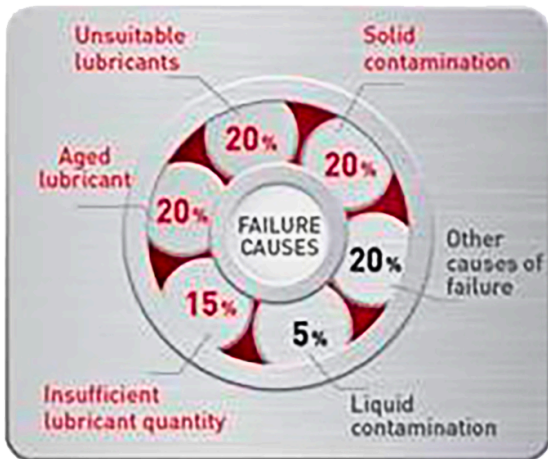

- Precision chain lubrication solutions
- Part assembly lubrication

ENHANCING MACHINE PERFORMANCE THROUGH OPTIMIZED LUBRICATION

75% OF BEARING FAILURES ARE ATTRIBUTED TO LUBRICATION ISSUES

Automatic lubrication systems help eliminate these risks by delivering the right amount of grease at the right time, improving reliability, extending service intervals, and reducing operating costs.

COMPREHENSIVE LUBRICATION SURVEYS

We offer on-site lubrication surveys that inspect and document every point, provide a detailed material list, and can integrate with digital management systems. The results deliver expert guidance, highlight improvement opportunities, and implement optimized solutions to boost reliability, extend service intervals, and reduce costs.

SYSTEM DESIGN AND INSTALLATION

From storage tanks and transfer pumps to hose reels and end-point dispensing, Exotic delivers turnkey lubrication system design and installation for efficient, reliable fluid handling.

Contact us at **(844) FIX-HOSE** to schedule your installation today!
